Note Checkers

At the very heart of what we do, our extensive range of counterfeit banknote detectors is unrivalled in its quality and pricing. So whether you require note checker pens, uv detectors, automated or multi-currency machines or a combination of your choosing, we definitely have the right solution for you.

Ink-based solutions

Note Checker Pens:-

Simply mark the note with the pen to perform a chemical test

Note Swipe Unit:-

Slide the note through the gap in the top. Ink is released evenly across the note in a pen-like fashion. Sticky pad on the reverse allows convenient positioning on till drawer.

Ultra Violet-based detectors

Definitions explained

UV Light:-

Most world banknotes have hidden UV security features which are revealed when a good quality UV light is used.

White light:-

Placing a note over a white light allows watermarks to be examined

Magnification:-

Checking the print quality on notes, or other features, close up can be easy with a good quality magnifier

Magnetic:-

One of the most effective ways to check notes for forgeries is magnetic detection. Commonly the silver thread on English Pounds and Euros or the magnetic ink found in serial numbers is a highly effective counterfeit check

Automatic / Multi-Currency Detectors

Duo / Duo Extra (MK3):

Arguably the best possible tools available for cashiers accepting notes from the public, these machines are super-fast and provide an unbeatable deterrent against would-be forgers. With as many as 5 separate counterfeit checks performed in a fraction of a second per note it is no surprise that thousands of companies in the UK rely on such devices. Other in-built features can include; full ongoing value and denomination count, rechargeable battery, PC Connection for software upgrades

Multi-Currency Detectors:

Utilising similar technology to the Duo/Duo Extra, multi-currency detectors often require extra magnetic or infra red sensors to account for different currencies security features, along with more sophisticated recognition software. Still, products such as the 6-in-1 or 8-in-1 multi-currency detectors will perform fantastically quick checks on most world currencies with the highest of accuracy. Of course PC upgrades and connectivity solutions are available on request.

Ingenicash 750:

A unique product, the Ingenicash 750 checks for forgeries but also will record and print the serial numbers of US Dollars, Euros and English Pounds using the built-in printer. Ideal for government departments, Police etc

Note Handling Range

Basic Note Counter

Basic Note Counter

Features:

Designed for light usage
Count and batches pre-sorted notes quickly whilst checking for forgeries
Counterfeit detection methods UV and MG
Will count and check Sterling and Euros
Also detects chain notes, half note and double-notes
2 x LED display (one built in and one separate if required)

Technical Data:

Counting Speed 1,000 notes per min
Hopper Capacity 200 notes
Stacker Capacity 200 notes
Dimensions 265(L) x 235(W) x 190(H)
Net Weight: 2.8Kilos

Portable Note Counter

Portable Note Counter

Features:

Single-denomination note counter
Runs from mains, via internal rechargeable battery or 12V vehicle charger
Will count any currency including GBP and Euro
Also detects chain notes, half note and double-notes
Keyboard with LED display
Automatic and manual start function
Variable stop from 1-999

Technical Data:

Counts at approx 1,000 notes/min
Hopper Capacity 200 notes
Stacker Capacity 200 notes
Net Weight: 2.8 Kilos

Standard Note Counter

Standard Note Counter

Features:

Designed for low to medium usage
Counterfeit detection methods include UV and MG
Also detects chain notes, half note and double-notes
Keyboard with LED display
Automatic and manual start function
Free count mode, Add mode and Preset (batch) mode
Size (width) detection

Technical Data:

Variable Counting Speed; 700, 1,000 and 1,400 notes/min
Hopper Capacity 300 notes
Stacker Capacity 200 notes
Dimensions: 195mm (H) / 275mm (W) / 227mm (D)
Net Weight: 5.8Kilos

The CT Coin Range of bank-standard, heavy-duty, multi-currency note counters has everything you will ever need for smooth operation, counterfeit detection and durability.

Dolphin 200

Dolphin 200 Series

Features:

Robust and user-friendly single-denomination note counter
Counterfeit detection methods include UV, IR, MG and 3D
Currency versions available inc GBP, Euro and US Dollar and more
Also detects chain notes, half note and double-notes
Keyboard with LED display
Automatic and manual start function
Variable stop from 1-999
Option for remote display

Technical Data:

Variable Counting Speed 600, 900, 1200, 1500 notes/min
Hopper Capacity 200 notes or 350 using extension clips
Stacker Capacity 200 notes
Dimensions 265(L) x 235(W) x 190(H)
Net Weight: 6.5Kilos

Dolphin 300

Dolphin 300 Series

Features:

Robust and user-friendly single-denomination note counter
Counterfeit detection methods include UV, MG, IR, 3D and MT
Options for multi-currency machine (up to 3 currencies per unit)
Also detects chain notes, half note and double-notes
Keyboard with LED display
Automatic and manual start function
Variable stop from 1-999
Option for RS232 interface / remote display
Performs self diagnostics of the system
Settings are kept in the memory when the machines switch off

Technical Data:

Variable Counting Speed 600, 900, 1200, 1500 notes/min
Hopper Capacity 200 notes or 350 using extension clips
Stacker Capacity 200 notes
Dimensions 265(L) x 235(W) x 190(H)
Net Weight: 6.5Kilos

Dolphin 500

Dolphin 500 Series (Mixed Denomination Note Counter)

Features:

Robust and user-friendly single and mixed denomination note counter
Counterfeit detection methods include UV, MG, IR, 3D and MT
Options for multi-currency machine (up to 3 currencies per unit)
Also detects chain notes, half note and double-notes
Keyboard with LED display
Automatic and manual start function
Variable stop from 1-999
Option for RS232 interface / remote display
Performs self diagnostics of the system
Settings are kept in the memory when the machines switch off

Technical Data:

Variable Counting Speed 600, 900, 1200, 1500 notes/min
Hopper Capacity 200 notes or 350 using extension clips
Stacker Capacity 200 notes
Dimensions 265(L) x 235(W) x 190(H)
Net Weight: 6.5Kilos

Built with a second 'reject' pocket, the Eagle 1000 opens up many possibilities. Now you are able to perform a continuous non-stop count, while 'off-sorting' reject notes, counterfeit notes and notes of different values. The Eagle 1000 can also face and orient your notes for 'best presentation'.

Eagle 1000

Eagle 1000 Double-Pocket Note Counter

Features:

- Mixed Count Mode
- Single Count Mode
- Separation Mode – Face/back or orientation
- Simple and easy to operate

Easy to use count display shows all totals and breakdowns

Technical Data:

Display count: 7 Digit LED
Counting Speed: Over 450 coins per minute
Individual Tray capacity 180 - 230 coins
Batch Preset -3 Digits LCD
Hopper Capacity: 900 coins
Dimensions-330mm x 330mm x 255mm
No allowance for foreign or counterfeit coins

Blackbird coin counter

Features:

Compact, quiet and reliable electronic counting system
Programmable bag stops
7 Digit clear LED display
Direct, easy access to coin patch with safety

Technical Data:

Easy to operate
Counting speed: <2300 coins/minute
Continuous or preset batch counting
International coin & token models available
Backup memory features
Countable coin size: Diameter 14-34 mm - thickness 0.7-3.9 mm
Hopper capacity: 3600 coins (with the hopper extender installed: 12000 coins)
Count Display: 7 Digit LED
Electrical: AC 110V+/-10% 60Hz or AC 220V+/-10% 50Hz
Power consumption: 70W (during operation)

Pelican 309S+ table-top coin sorter & counter

Features:

Non-stop counting heavy-duty rail sorter
Outstanding design collaboration with David Lewis of Bank & Olufsen
A high-speed, low noise device with many options
Includes CT Coin's 4th generation alloy sensor technology
Ensures 99.9995% counting accuracy
Rejects foreign coins, counterfeit coins, tokens etc
Counts & Sorts at up to 1,100 coins / minute
Built-in or external thermal printer options
Variety of bagging, stands and connectivity options

2-line display

Programmable bag-stop

Tilt sensor for easy cleaning of coin rail

Dimensions: 710 (L) x 350 (D) x 475 (H)

Weight 4.5Kg

Pelican 309S+

Cash Scales

Counting pre-sorted notes and coins together is quick and easy when you count by weight. To be used in conjunction with forgery detectors, Cash Scales can often be the quickest and most effective solution

Mini Cash Scales

Mini Cash Scales

Features:

- Cash counter designed for light usage
- Counts bagged or loose coins and loose or banded notes
- Ideal when double-checking count totals from larger cash sorters
- All progressive count data is shown on-screen as you go
- Standard unit counts GBP, Euro and Swiss Francs
- MCS doubles up as an everyday scale accurately weighing items up to 1kg

Technical Data:

- Built-in USB port and cable for currency upgrades
- PC software available to display, store and print counting results
- Large easy to use LCD with white backlight
- Also works from 9V battery making it portable
- 1 year warranty
- Weight 0.7kg
- Requires periodical configuration (500g weight supplied)
- With printer port to connect to serial receipt printer

Count Easy

Count Easy

Features:

- Cash counter designed for medium-high use
- Counts bagged or loose coins and loose or banded notes
- Pre-programmed for Pounds Sterling, US Dollars and Euros
- Keeps a running count total
- Full count breakdown displayed
- Can be used to make up floats and prepare banking

Technical Data:

- 4yr warranty
- Large easy to use LCD with backlight
- Fitted with a re-chargeable battery set making it portable
- Printer port allows external printer (optional)

Tellermate TY+

Tellermate TY+ Range

- Range of multi-functional cash counters designed for heavy-duty use
- Counts notes (loose, banded or clipped) and coins (loose, bagged or rolled)
- Dedicated float key with 4 preset, programmable float values.
- Dual currency facility allows two currencies to be counted simultaneously.
- Coupon wizard for non-cash items
- Auto-Add and Auto-Scroll functions for rapid systematic counting.
- Count summary screen allows all count information to be reviewed quickly
- Built in tutorial provides step-by-step continuous training.
- Communication connectivity to a PC or printer is enabled via an RS232 port. Connecting to a PC eliminates manual data entry, while printer connectivity creates paper audit trail.
- Supplied with an anti-slip hod, coin pot and larger coin scoop
- Pre-programmed for Pounds Sterling and Euros
- Find out what the TY+ can do by contacting us at NoteCheckers.Com

Mini Digital Coin Scales

Mini Digital Coin Scales

Features:

- Coin counter designed for light usage
- Ideal where accuracy and portability are required
- Pre-programmed Sterling coin values
- Ideal for till checking
- Optional coin scoop
- Simple to operate
- Mains or battery powered making it portable
- Auto-off feature to conserve battery life
- Optional stainless steel plate

Technical Data:

- Plate size 130 mm x 195 mm
- Battery Power 6 x 1.5 V AA Batteries
- Display LCD: 4 x 13 mm high digits.
- Pre-programmed with the following maximum count coin values:-
- Bronze - £ 5.60
- Silver - £30.70
- 20p - £80.00
- 50p - £99.50
- £1.00 - £210.00
- £2.00 - £332.00

Large Digital Coin Scales

Large Digital Coin Scales

Features:

- Coin counter designed for medium-high use
- Counts Euros & Sterling coins
- Pre-programmed with Sterling and Euro coin weights
- Counts loose or bagged coin
- 'Big bag' mode
- Large weigh plate
- Battery or mains
- Simple to operate
- No need for calculator or paper with built-in count accumulator
- Gives a running total of number of transactions and value after each entry
- Optional protective cover and coin scoop

Technical Data:

- Plate Size: 300 mm x 220 mm stainless steel.
- Mains Powered 220 volt, 50 Hz, AC. adaptor supplied.
- Battery Powered Dry Cell Batteries. 6 x C Cell batteries.
- Optional rechargeable battery pack.

Display:

- Three line LCD display.
- Annunciators for currency, coin denomination, tare and big bag mode.
- Pre-programmed coin values/ maximum count

Euro	Sterling
1c = 43.00	1p = £28.00
